About LLCA

LEVIN LIFE COACH
ACADEMY

nancy
levin

Several years ago, Nancy identified a major gap in the world of life coach training and certification. Other coaches were frequently approaching her (after having spent thousands of dollars on life coach certifications) to ask how she'd built and grown her business. As an in-demand master life coach, she was running a thriving coaching business, guest speaking for organizations and events throughout the world, and writing bestselling books. These coaches wanted to know Nancy's method for achieving success.

This is how Nancy became a coach for coaches. After listening to these experiences from other coaches acquiring costly certifications but not knowing how to get clients, or what to do once they got them, Nancy saw A LOT missing from these programs. She realized every single existing and aspiring life coach deserves better.

"In addition to life coach certification, LLCA gives you the confidence and support to build a profitable business." —**Nicole**

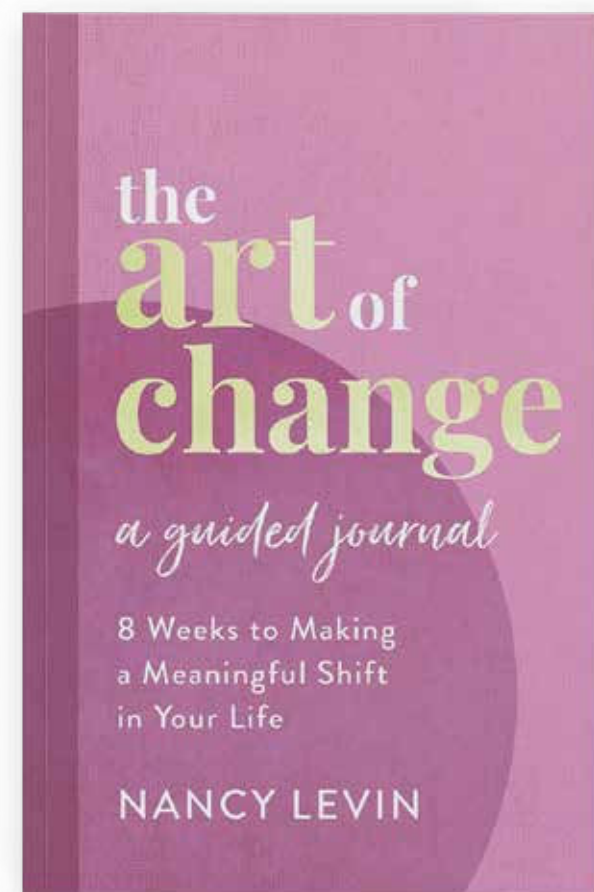

"The magnitude and the level of information, resources, guides, that's provided through LLCA is like nothing else I've found." —**Michael**

"When I think back to the person I was 10 months ago when I started this program, I feel so completely transformed. And I thank Nancy. LLCA has been amazing for me." —**Camela**
